

Existing Installation with License

When the plugin is already installed and a license is present (whether valid or expired), the interface provides advanced license management options through dedicated buttons available on the homepage.

“Update License” Button

- **Location:** Visible in the top bar of the homepage (Version 1.0)
- **Function:** Allows the user to enter a new license key or update the existing one
- **Use case:** Required when the current license has expired or when switching to a different license

License Update Window

When the user clicks **Update License**, the system displays a modal window with the following elements:

- **Information message:** *“A valid license is required to use this module”*
- **Insert License section:** Dedicated area for entering the new license key
- **Text field:** For entering the provided license code
- **Instructions:** *“Enter the provided license key and click ‘Verify’”*
- **CANCEL button:** Closes the window without making changes
- **VERIFY button:** Validates the newly entered license key

Per usare il modulo è necessaria una licenza valida.

Inserisci licenza
Digita il codice licenza fornito e premi "Verifica".

ANNULLA VERIFICA

The system automatically detects the license status and, in case of an error or expired license, displays an error message.
